EXECUTIVE PROFILE

I am a Front-end developer with 5+ years of experience, looking for a position where I can use my knowledge to serve the organization and evolve continuously through learning.

WORK EXPERIENCE

Sears Holdings India as Technical Associate
January 2023 – Current

- Migrated legacy code to enhanced rich Typescript with NextJS v14 framework
- Experienced with React.js state management workflows (such as Flux, Redux, or Context API), React Hooks, and developed custom hooks
- Knack for benchmarking and optimization that is using Chrome Dev tools for client-side performance analysis devising various combinations such as Network throttling, CPU slowdown etc
- Prototyped creative solutions quickly, and able to collaborate with others in crafting and implementing the technical vision

Mobcoder Technologies Pvt Ltd as SDE 2
December 2021 – December 2022

- Worked in agile environment with weekly stand-up, kept track of user stories/bugs in projects.
- Work with marketing designers, translating 40+ designs into 100% reusable monorepo code
- Unit tested React JavaScript components using Jest and Cypress with 90%+ code coverage

Tata Consultancy Services Limited as Systems Engineer
June 2019 – December 2021

- Learned front-end object-oriented programming to develop client & server-side systems
- Identified and implemented dynamic web solutions in accordance to company standards
- Pair programmed with 3 engineers, and reviewed team's code to provide additional perspective and catch previously missed errors & ESlint issues

SKILLS

JavaScript	React.js
TypeScript	Next.js
CSS3	Git
GraphQL	HTML5
Redux	AWS
